

Your fillable bag can be used for a variety of beverages--only limited by your imagination! Besides using your own bottles of wine (the bag will hold four 750 ml bottles!), you can fill it with cocktails, sangria, bourbon, even olive oil to use for cooking! Here are a couple of recipes to get you started...

## Moscato Sangria

### Ingredients:

- 1 box BOTA Moscato Wine
- 1/2 cup Coconut Rum
- 1 Peach
- 1 Kiwis
- 1 Lime
- 5 Strawberries
- 1 Bottle seltzer (fruit flavored or plain)

Cut fruit small enough to fit into fillable bag. Place empty bag in your Nook while it's laying down with spout up to fill. Put all fruit in. Pour rum in, then empty bag of Moscato directly into your fillable bag. Put spout on and refrigerate until ready to serve. Pour into glass and add a splash of seltzer and more fruit if desired!
